

EAST COAST INVESTMENT GRADE INCOME FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended June 30, 2016

Management Report of Fund Performance

This semi-annual management report of fund performance contains financial highlights but does not contain the complete unaudited semi-annual financial statements for East Coast Investment Grade Income Fund (the "Fund"). If you have not received a copy of the unaudited semi-annual financial statements with the management report of fund performance, you may obtain a copy of the unaudited semi-annual financial statements, at no cost, by calling 1-877-327-6048 or by sending a request to Arrow Capital Management Inc. (the "Manager"), 36 Toronto Street, Suite 750, Toronto, Ontario, M5C 2C5, or by visiting our website at www.arrow-capital.com or SEDAR at www.sedar.com.

Unitholders may also contact us by using one of these methods to request a copy of the Fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

The Fund

The Fund is a closed-end investment trust managed by the Manager. The units of the Fund trade on the Toronto Stock Exchange ("TSX") under the symbol ECF.UN. Through a forward agreement ("Forward Agreement") between the Fund and Bank of Nova Scotia (the "Counterparty"), the Fund is exposed to a portfolio of securities (the "Portfolio") held by ECIGIF Trust. East Coast Fund Management Inc. (the "Portfolio Advisor"), is the portfolio advisor for the Portfolio held by ECIGIF Trust.

Investment Objectives and Strategies

The Fund's investment objectives are to provide unitholders with attractive monthly, tax-advantaged cash distributions, while preserving capital through an actively managed, diversified portfolio of investment grade debt securities of Canadian corporate and government issuers that are rated BBB- or higher by Standard & Poor's, or a similar rating from a qualified rating agency. The portfolio, held by ECIGIF Trust, consists primarily of corporate investment grade debt securities and government bonds. Distributions are targeted to be \$0.05 per month per unit.

The return to investors of the Fund is dependent upon the return of the ECIGIF Trust portfolio pursuant to the Forward Agreement. As a result, this management report of fund performance includes discussion of the performance of ECIGIF Trust, where applicable.

Risks

Risks associated with an investment in the units of the Fund are discussed in the Fund's prospectus dated April 26, 2012 (the "Prospectus"), which is available on the Fund's website at www.arrow-capital.com or on SEDAR at www.sedar.com. There were no changes to the Fund over the year that materially affected the risks associated with an investment in the units of the Fund.

Results of Operations

Investment Portfolio

As of June 30, 2016, ECIGIF Trust's portfolio included a total of 71 [December 31, 2015 - 87] corporate investment grade debt securities held both long and short, the net representing approximately 309.9% [December 31, 2015 - 345.1%] of the net assets of ECIGIF Trust.

As part of its investment strategy, ECIGIF Trust sells government bonds short and invests its proceeds in corporate investment grade debt securities. Incorporating short sales also enhances the portfolio yield and allows ECIGIF Trust to offset some or all of the interest rate risk on that portion of the portfolio. As at June 30, 2016, ECIGIF Trust had \$123.6 million, [December 31, 2015 - \$142.7 million] fixed income short positions and a related unrealized gain of \$0.8 million [December 31, 2015 - \$0.3 million unrealized loss] from short sales.

The breakdown of the portfolio by industry is shown in the accompanying pie chart. A detailed listing of ECIGIF Trust's security holdings is provided in the financial statements.

EAST COAST INVESTMENT GRADE INCOME FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended June 30, 2016

Portfolio Sectors

During the period, ECIGIF Trust's portfolio generated net realized and unrealized gains of \$1.8 million [December 31, 2015 - (\$4.9) million], including net realized and unrealized losses from derivatives of (\$0.8) million [December 31, 2015 - (\$3.5) million].

Revenues, Expenses and Distributions

Through the Forward Agreement, the Fund participates in interest income and other revenues earned by ECIGIF Trust and expenses of ECIGIF Trust. ECIGIF Trust earned interest income of \$0.61 per Fund unit during the year [December 31, 2015 - \$0.62], including interest expense on short sales. Total combined expenses, of the Fund and ECIGIF Trust for the period ended June 30, 2016 were \$0.22 per Fund unit [December 31, 2015 - \$0.29]. The Fund declared monthly cash distributions to unitholders through the period at the targeted monthly rate of \$0.05 [December 31, 2015 - \$0.05], which totaled \$0.30 per unit for the period [December 31, 2015 - \$0.60].

Net Asset Value

As a result of the Forward Agreement, the Net Asset Value of the Fund is dependent upon the performance of ECIGIF Trust's portfolio. The aggregate Net Asset Value of the Fund as at June 30, 2016 was \$50.8 million, up from \$50.0 million at December 31, 2015. During the period, the Net Asset Value per unit increased by \$0.14, from \$9.15 at December 31, 2015 to \$9.29 as at June 30, 2016 [December 31, 2015 - decrease of \$1.15 from \$10.30 to \$9.15]. There were distributions to unitholders of \$1.6 million during the period.

Liquidity

To provide liquidity for unitholders, units of the Fund are listed on the TSX under the symbol UCF.UN. For the year, units of the Fund traded at an average discount to their Net Asset Value per unit of (5.0%) [December 31, 2015 - discount (3.8%)]. Investors may also redeem their units in accordance with the Fund's redemption provisions.

Redemption

The Fund had no redemptions during the period [December 31, 2015 - \$35.2 million].

Recent Developments

There are no recent developments for the Fund.

Related Party Transactions

Related party transactions consist of services provided by the Manager pursuant to a management agreement. See the Management Fees section below.

EAST COAST INVESTMENT GRADE INCOME FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended June 30, 2016

Management Fees

Pursuant to a management agreement, the Manager provides management and administrative services to the Fund, for which the Fund pays management fees and service fees, equal on a combined basis to 0.65% per annum of the total Net Asset Value of the Fund, plus applicable taxes. The service fee is 0.40% per annum of the Net Asset Value of the Fund. The service fee is in turn paid by the Manager to investment dealers based on the proportionate number of units held by clients of each dealer at the end of each calendar quarter. During the period ended June 30, 2016, management fees and service fees amounted on a combined basis to \$0.4 million [December 31, 2015 - \$1.4 million], with \$0.07 million [December 31, 2015 - \$0.3 million] attributable to service fees. In addition, the Manager is responsible for providing management and administrative services to ECIGIF Trust and for paying the fees of ECIGIF Trust's Portfolio Advisor. ECIGIF Trust pays management fees equal to 1.00% per annum of the Net Asset Value of ECIGIF Trust, plus applicable taxes. The management fees and service fees from the Fund and ECIGIF Trust are used by the Manager to cover its costs for its services in connection with the management of the Fund, the cost of the Portfolio Advisor and for profit.

No Performance Fee will be charged by the Fund. The Manager is entitled to receive from the ECIGIF Trust an annual Performance Fee equal to 10% of the increase in the Net Asset Value of the ECIGIF Trust (including distributions paid on the units of ECIGIF Trust), subject to an annual hurdle rate of 5.30%. The Manager earned \$346,241 in Performance Fees during the year [December 31, 2015 - \$nil] from ECIGIF Trust.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help readers understand the Fund's financial performance. This information is derived from the Fund's audited annual financial statements. *The information in the following tables is presented in accordance with National Instrument ("NI") 81-106 and, as a result, does not act as a continuity of opening and closing Net Assets per unit.* The increase (decrease) in Net Assets from operations is based on average units outstanding during the year, and all other numbers are based on actual units outstanding at the relevant point in time.

- (1) The net assets per unit shown for June 30, 2016, December 31, 2015, December 31, 2014 and December 31, 2013 are referenced to net assets attributable to holders of redeemable units determined in accordance with IFRS and are derived from the Fund's audited annual financial statements. The net assets per unit shown for prior years are referenced to Net Assets determined in accordance with Canadian generally accepted accounting principles ("GAAP") and are derived from the Fund's audited annual financial statements. The Net Assets presented in the audited annual financial statements may differ from the NAV calculated for fund pricing purposes. NAV is calculated using fair value measures as defined by National Instrument 81-106 ("NI 81-106"), where as Net Assets are calculated in accordance with IFRS/GAAP. An explanation of these differences can be found in the notes to the audited annual financial statements. Net Assets per unit and distributions per unit are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is

EAST COAST INVESTMENT GRADE INCOME FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

Closing market price	\$8.91	\$8.45	\$9.95	\$10.66	\$11.15

*Ratios have been annualized

(1) MER is based on the requirements of NI 81-106 and includes the total expenses (excluding commissions, margin interest, security borrowing costs, and other portfolio transaction costs) of the Fund and ECIGIF Trust for the stated period, including issuance costs, and is expressed as an annualized percentage of the average Net Asset Value of the period.

(2) The trading expense ratio represents total commissions, margin interest, and security borrowing costs of the Fund and ECIGIF Trust expressed as an annualized percentage of the daily average Net Asset Value of the Fund during the period.

(3) The Fund's portfolio turnover rate indicates how actively the Fund's Portfolio Advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Fund. Portfolio turnover rate is calculated by dividing the lesser of the cost of purchases and the proceeds of sales of portfolio securities of ECIGIF Trust for the period, excluding cash and short-term investments maturing in less than one year, by the average market value of investments of ECIGIF Trust during the period.

(4) Period from May 18, 2012 (commencement of operations) to December 31, 2012.

Past Performance

The following chart and table show the past performance of the Fund. Past performance does not necessarily indicate how the Fund will perform in the future. The information shown is based on Net Asset Value per unit and assumes that distributions made by the Fund on its units in the period shown were reinvested (at Net Asset Value per unit) in additional units of the Fund.

The bar chart shows the Fund's overall total return for each period since inception. The chart shows, in percentage terms, how an investment held on the first day of the fiscal period would have changed by the last day of the fiscal period.

EAST COAST INVESTMENT GRADE INCOME FUND

MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended June 30, 2016

Portfolio Advisor

East Coast Fund Management Inc. ("ECFMI"), incorporated under Business Corporations Act (Ontario) on June 22, 2009, is the portfolio advisor of the ECIGIF Trust. ECFMI is responsible for all portfolio advisory and investment management services that are provided to ECIGIF Trust.

Portfolio Advisor Report

Investment Grade (IG) spreads in Canada started the year at very wide levels and ended the first six months of 2016 slightly tighter, although until mid-February spreads were mostly wider than where they began. Because of this early underperformance of credit spreads, ending the period slightly tighter put them at their YTD tightest. Part of this tightening is attributed to the European Central Bank (ECB) beginning its Corporate Sector Purchase Program (CSPP) where they are buying investment grade non-financial corporate debt of European issuers. This new price-insensitive buyer in the corporate market is soaking up some of the demand from traditional buyers pushing IG spreads across the developed world tighter. It is important to note though, IG spreads are still very wide by a historic standard. 10 year BBB spreads in Canada are 238 bps vs. their long term average of 175 (source: Bloomberg). US High Yield (HY) spreads are much closer to their long term averages which is one of the reasons why we strongly favor IG over HY investments.

Interest rates in both Canada and the United States fell to all-time lows in June which puts bond investors in a precarious situation. Buying a 10 year BBB corporate bond in Canada on June 30th 2016 would yield you 3.4%. Of this, 1% is from the underlying yield on a 10Y Government of Canada bond and 2.4% is from the credit spread. Government bond yields are at their all-time lows and IG credit spreads (reference in the previous paragraph), are historically wide and we believe the investors who are worried about rates either rising or staying at these low levels will want exposure to the pure credit part only of high quality corporate bonds. This is the most one-sided this ratio has been as far back as our data goes.

Oil has spent most of the year going higher which has helped both the Canadian dollar and spreads in names exposed to the energy sector. One of our top performing names was in Enbridge which has long-term take or pay contracts. We felt this name was particularly beat up given its strong fundamentals and it has proven to be a good investment. Over the period we have reduced our exposure as spreads have become tighter.

We said in our previous commentary that wide spreads provided a lot more opportunity to make money in 2016 than in 2015 and that we are very excited about our strategy's potential returns in 2016 - we are happy to see how 2016 has gone so far. With the Brexit vote behind us there are less potential surprises on the horizon and we are looking to take advantage of opportunities as they come up over the next 6 months. We have and will continue to err on the side of more liquid, tradeable names for the portfolio in both the investment grade and high yield markets where we like the return we get for the risks we have to take.

Forward-Looking Statements

Some of the statements contained herein including, without limitation, financial and business prospects and financial outlook may be forward-looking statements which reflect management's expectations regarding future plans and intentions, growth, results of operations, performance and business prospects and opportunities. Words such as "may," "will," "should," "could," "anticipate," "believe," "expect," "intend," "plan," "potential," "continue" and similar expressions have been used to identify these forward-looking statements. These statements reflect management's current beliefs and are based on information currently available to management. Forward-looking statements involve significant risks and uncertainties. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements including, but not limited to, changes in general economic and market conditions and other risk factors. Although the forward-looking statements contained herein are based on what management believes to be reasonable assumptions, we cannot assure that actual results will be consistent with these forward-looking statements. Investors should not place undue reliance on forward-looking statements. These forward-looking statements are made as of the date hereof, and we assume no obligation to update or revise them to reflect new events or circumstances.
